L'APPRÊT **W**

STRUCTURING AND SOFTENING FINISHING ADDITIVE FOR CLOTHING CLEANING PROCESSES

FEATURES :

L'APPRÊT **W** is a product for professional use for finishing textiles by water cleaning (**WET CLEANING**). It protects the fiber and gives the items a soft and silky touch while making ironing easier. It also prevents shrinkage and felting of fibers, especially woolsens. IT WILL IMPROVE THE HOLD OF TEXTILES BY REDUCING THEIR SENSITIVITY TO HUMIDITY THANKS TO ITS PROTECTIVE LAYER.

L'APPRÊT **W** is a professional additive of the latest generation, innovative and formulated to obtain high softening properties, firmness and perfect drape. This double action gives fabrics a soft appearance and a perfect hold.

INSTRUCTIONS FOR USE :

This product should be used in the washing machine in the last bath of wet cleaning. To benefit from the maximum capacity of L'APPRÊT **W**, the articles will then have to be dried in the dryer in order to make it react to the heat.

L'APPRÊT **W** is used in addition to other products in the **AQUA CLEAN** range to obtain optimum results for clothes during water cleaning processes (**WET CLEANING**).

COMPOSITION :

Physical state : Liquid.
Color : Light blue.
Appearance : Clear.
Odor : Characteristic.

Mixture of cationic and polymeric surfactants.

Due to its composition, L'APPRÊT **W**, provides textiles with a protective film to reduce the mechanical effects of cleaning with water and to react to the dryer.

It will increase the hold of the garment, thus offering a pleasant and elastic touch while greatly facilitating steaming and ironing.

RECOMMENDED DOSES :

The dosage is 5-15 g of product per kg of dry laundry. Storage: 18 months in its original packaging. Store the product in a dry and ventilated place.
