

TANIN+

GENERAL DESCRIPTION :

TANIN+ is the result of the latest technology in surfactants and emulsifiers.

TANIN+ is a special blend of suspension, emulsifiers, anti-redeposition agents, water conditioners, and brighteners.

This product is used to treat **in aqua cleaning and in laundry** the stains of red fruits, wine, coffee, tea, fruit juice, colas, alcoholic drinks, chocolate, spices: curry, cumin, curcumin, saffron. As well as henna and hair dyes.

MANUAL :

TANIN+ is completely soluble regardless of water temperature. Its suspending effect will be optimized at a temperature ranging from 10 ° C to 76 ° C. For effective treatment of stains at given temperatures, it can be obtained during a normal washing cycle or aqua cleaning after stain removal. If the soil conditions are extreme, a longer and repeated cycle may be necessary.

IN PRE-SOAKING : TANIN+ can be used as a pre-soak solution. For heavily soiled laundry, an overnight pre-soak will be recommended.

PHYSICAL PROPERTIES :

Appearance.....	Limpid
pH.....	2-6
Color.....	colorless to yellow
Penetration.....	Immediate
Possibility of mooring.....	Excellent
Foam.....	Moderate
Rinsing.....	Complete
Solubility.....	Soluble in water
